Name: Jake Taylor

Bill Gates was born on the 28th October 1955 in Seattle, Washington, United States.

Top fact:
Bill Gates is the second richest person on Earth.

On the 4th October 1975 Bill Gates made Microsoft. This changed the way that we use computers forever. Bill Gates done this by inventing a computer system called 'Microsoft Windows.' This started out as a text based system called 'Ms-Dos.' Microsoft became most popular in 2001 when they made 'Microsoft Windows XP.' Bill Gates inspires me because when he was making 'Ms-Dos' he didn't have a computer program to do it. So he had to invent a code language. No matter how hard it was, he didn't give up. So when I find something hard I think of Bill Gates.
Auntie Donna was born on February 4th, 1985. She was born in Lewisham and her family is her dad Brian her sister Gemma.

My mum, her sons are Max and Archie/my cousin. Her job is a one to one teaching assistant.

I have chosen my Auntie Donna as my inspirational person. She may not be famous but has taught me that no matter what is going on you can still smile and have fun. My youngest cousin Archie is severely disabled and has had many operations. He can’t speak and has limited sight. My Auntie Donna never leaves his side and understands everything the doctors say about his condition. She also helps the trainee doctors by allowing them to study on Archie and see if they can say what is wrong with him. Last year Auntie Donna was also diagnosed as diabetic and now has to look after herself and Archie. It doesn’t bother her that what is going on you never see Auntie Donna sad or upset. She never misses a birthday and always makes ourselves. We have fun and it is because of that. All those things that I have chosen as my inspirational person.
Leonardo da Vinci

Date of birth:
15 April 1452

Place of birth:
Republic of Florence (Now Italy)

Why are they an inspirational person?

He was a great artist. He painted paintings like Mona Lisa and The Last Supper. I want to become a famous painter like Leonardo da Vinci.
Name: Alan
