1. Aims

Our school aims to ensure that all data collected about staff, pupils, parents and visitors is collected, stored and processed in accordance with the Data Protection Act 1998.

This policy applies to all data, regardless of whether it is in paper or electronic format.

2. Legislation and guidance

This policy meets the requirements of the Data Protection Act 1998, and is based on guidance published by the Information Commissioner’s Office and model privacy notices published by the Department for Education.

It also takes into account the expected provisions of the EU General Data Protection Regulation, which came into force in the UK on 25 May 2018 (“the GDPR”).

This policy complies with our funding agreement and articles of association.

</tr>
</tbody>
</table>
4. The data controller

Our school processes personal information relating to pupils, staff and visitors, and, therefore, is a data controller. Our school delegates the responsibility of data controller to the Personnel Officer, Mrs K Jennings.

The school is registered as a data controller with the Information Commissioner’s Office and renews this registration annually.

5. Data protection principles

The Data Protection Act 1998 is based on the following data protection principles, or rules for good data handling:

- Data shall be processed fairly and lawfully
- Personal data shall be obtained only for one or more specified and lawful purposes
- Personal data shall be relevant and not excessive in relation to the purpose(s) for which it is processed
- Personal data shall be accurate and, where necessary, kept up to date
- Personal data shall not be kept for longer than is necessary for the purpose(s) for which it is processed
- Personal data shall be processed in accordance with the rights of data subjects under the Data Protection Act 1998
- Appropriate technical and organisational measures shall be taken against unauthorised or unlawful processing of personal data, and against accidental loss or destruction of, or damage to, personal data
- Personal data shall not be transferred to a country or territory outside the European Economic Area unless the country or territory ensures an adequate level of protection for the rights and freedoms of data in relation to the processing of personal data

6. Roles and responsibilities

The governing board has overall responsibility for ensuring that the school complies with its obligations under the Data Protection Act 1998.

Day-to-day responsibilities rest with the Head of School, or the Deputy Head in the Head of School’s absence. The Head of School will ensure that all staff are aware of their data protection obligations, and oversee any queries related to the storing or processing of personal data.

Staff are responsible for ensuring that they collect and store any personal data in accordance with this policy. Staff must also inform the school of any changes to their personal data, such as a change of address.
7. Privacy/fair processing notice

7.1 Pupils and parents
We hold personal data about pupils to support teaching and learning, to provide pastoral care and to assess how the school is performing. We may also receive data about pupils from other organisations including, but not limited to, other schools, local authorities and the Department for Education.

This data includes, but is not restricted to:

- Contact details
- Results of internal assessment and externally set tests
- Data on pupil characteristics, such as ethnic group or special educational needs
- Exclusion information
- Details of any medical conditions

We will only retain the data we collect for as long as is necessary to satisfy the purpose for which it has been collected.

We will not share information about pupils with anyone without relevant consent unless the law and our policies allow us to do so. Individuals who wish to receive a copy of the information that we hold about them/their child should refer to sections 8 and 9 of this policy.

We are required, by law, to pass certain information about pupils to specified external bodies, such as our local authority and the Department for Education, so that they are able to meet their statutory obligations.

The school has separate privacy notices for Staff, Governors, Pupils, Parents/Carers and Job Applicants in line with the GDPR.

7.2 Staff
We process data relating to those we employ to work at, or otherwise engage to work at, our school. The purpose of processing this data is to assist in the running of the school, including to:

- Enable individuals to be paid
- Facilitate safe recruitment
- Support the effective performance management of staff
- Improve the management of workforce data across the sector
- Inform our recruitment and retention policies
- Allow better financial modelling and planning
- Enable ethnicity and disability monitoring
- Support the work of the School Teachers’ Review Body
Staff personal data includes, but is not limited to, information such as:

- Contact details
- National Insurance numbers
- Salary information
- Qualifications
- Absence data
- Personal characteristics, including ethnic groups
- Medical information
- Outcomes of any disciplinary procedures

We will only retain the data we collect for as long as is necessary to satisfy the purpose for which it has been collected.

We will not share information about staff with third parties without consent unless the law allows us to.

We are required, by law, to pass certain information about staff to specified external bodies, such as our local authority and the Department for Education, so that they are able to meet their statutory obligations.

Any staff member wishing to see a copy of information about them that the school holds should contact Mrs K Jennings, Personnel Officer.

8. Subject access requests

Under the Data Protection Act 1998, pupils have a right to request access to information the school holds about them. This is known as a subject access request.

Subject access requests must be submitted in writing, either by letter, email or fax. Requests should include:

- The pupil’s name
- A correspondence address
- A contact number and email address
- Details about the information requested

In response to such requests, the school will not reveal any of the following:

- Information that might cause serious harm to the physical or mental health of the pupil or another individual
- Information that would or could reveal that the pupil is at risk of abuse, where disclosure of that information would not be in the pupil’s best interests
- Information contained in adoption and parental order records
- Information given to a court in proceedings concerning the pupil
Subject access requests for all or part of the pupil’s educational record will be provided within 15 school days. The table below summarises the charges that apply.

</tr>
</tbody>
</table>
If a subject access request does not relate to the educational record, we will respond within 40 calendar days. The maximum charge that will apply is £10.00.

9. Parental requests to see the educational record

Parents do not have an automatic right of access to their child’s educational record. The school will decide on a case-by-case basis whether to grant such requests, and we will bear in mind guidance issued from time to time from the Information Commissioner’s Office (the organisation that determines information rights).

Personal data about a pupil belongs to that child, and not the child’s parents. This is the case even where a pupil is too young to understand the implications of subject access rights.

For a parent to make a subject access request, the pupil must either be unable to understand their rights and the implications of a subject access request, or have given their consent.

If parents ask for copies of information, they will be required to pay the cost of making the copies.

10. Storage of records

Paper-based records and portable electronic devices, such as laptops and hard drives, that contain personal information are kept under lock and key when not in use.

Papers containing confidential personal information should not be left on office and classroom desks, on staffroom tables or pinned to noticeboards where there is general access.

Passwords that are at least 8 characters long containing letters and numbers are used to access school computers, laptops and other electronic devices. Staff and pupils are reminded to change their passwords at regular intervals.
Encryption software is used to protect all portable devices and removable media, such as laptops and USB devices.

Staff, pupils or governors who store personal information on their personal devices are expected to follow the same security procedures for school-owned equipment.

11. Disposal of records

Personal information that is no longer needed, or has become inaccurate or out of date, is disposed of securely.

For example, we will shred or incinerate paper-based records, and override electronic files. We may also use an outside company to safely dispose of electronic records.

12. Training

Our staff and governors are provided with data protection training as part of their induction process.

Data protection will also form part of continuing professional development, where changes to legislation or the school’s processes make it necessary.

13. Monitoring arrangements

The Personnel Officer is responsible for monitoring and reviewing this policy.

This document will be reviewed when the General Data Protection Regulation comes into force, and then every 2 years.

At every review, the policy will be shared with the governing board.

14. Links with other policies

This data protection policy and privacy notice is linked to the freedom of information publication scheme.
